Ansh Agarwal

B.Tech CSE · AI/ML Engineer · Full-Stack & DevOps Developer

SUMMARY

Motivated Computer Science Engineering student with strong skills in Full-Stack Development, AI/ML, and DevOps fundamentals. Experienced in building scalable web applications, AI-powered solutions, and cybersecurity-based projects using modern technologies like React, Node.js, Python, Flask, Docker, and PostgreSQL. Passionate about problem-solving, cloud technologies, and creating real-world impactful solutions through innovation and continuous learning.

EDUCATION

B.Tech in Computer Science Engineering

Sushila Devi Bansal College of Technology (SDBCT) · Indore

2023 – 2027

12th PCM — 68%

Maharaja Yeswant Rao Holkar School · Indore

2021 – 2022

10th — 62%

Chameli Devi Public School · Indore

2019 – 2020

PROJECTS

WEB · FULL-STACK

University Website (Full-Stack)

Built using Node.js & Express with dynamic course profiles, resource recommendations, and content management.

SECURITY · PYTHON

CyberShield Pro — Security Lab

Cybersecurity testing platform in Python with vulnerability scanning, network tools, and cryptography. Includes threat analysis workflows.

AI · SEARCH ENGINE

Aether — AI-Powered Search

AI-based search engine using Python and LLM APIs. Applied RAG architecture and citation-based query handling.

SAFETY · ML

Trinetra — Safe Route Navigation

Safe-route navigation for women using real-time crime data and ML pathfinding. Backend with Flask and PostgreSQL.

ACHIEVEMENTS & HACKATHONS

BGI Hackathon 2026 — Vision 2047 | Viksit Bharat · Certificate of Participation

National-Level Innovation Platform · 600+ teams, 2800+ participants · Theme: Smart Cities & Urban Innovation and Disaster Management · BGI-SDBC Campus, Indore · May 15–16, 2026

EXPERIENCE & ACTIVITIES

Engineering Student & Self-Directed Developer

Aug 2023 – Present

Sushila Devi Bansal College of Technology (SDBCT)

- Building hands-on expertise in Linux, Docker, CI/CD pipelines, Git workflows, and cloud fundamentals (AWS, GCP).
- Developed multiple full-stack web applications and AI-powered tools as independent academic and personal projects.
- Completed cybersecurity internship with practical experience in network scanning, vulnerability analysis, and encryption.
- Participated in national-level hackathons, applying ML and software skills to real-world problem statements.
